

"If we teach today as we were taught by yesterday, we rob our children of tomorrow"

"Do not confine children to your own learning, for they were born in another time"

You become panacea for all of world's educational needs.

Having continuous improvement as our core values, we will improve every process every day and will make a huge difference in your life.

Allow us to be your vantage point.

Be ready to grow with us.

**School Management
Software**

Take advantage of this propitious moment to take education and your business to next level.

- Our school management software has following features. Managing payments, expenses, student records, attendance, marks, library, online registration, online applications, and admissions, assigning homework, assignments, making announcements, timetable generations, infrastructure details, resource management and reporting.

Up to date payment reports will be helpful to management.

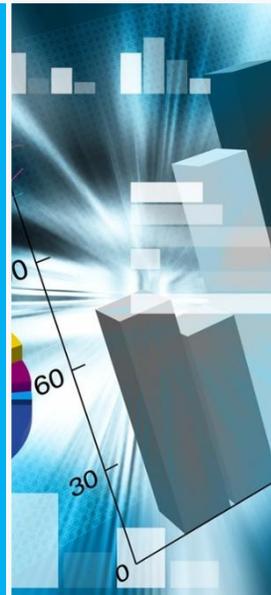

- All these can be accessed from smart phones and tablets.

Imagine teachers/lecturers taking attendance using their smart phones.

Parents and Teachers communication is more than their scheduled meetings. Experience it with us.

Reporting feature is the most sophisticated of all. Up to date payment reports will be very much helpful to school management. Similarly up to date progress reports, marks and attendance reports will be helpful to parents and teachers.

Software as a service

Our **world class** software is available on cloud.

No need to purchase special servers.

No maintenance required.

Automatically updated to latest version.

Unlimited users.

Just don't worry about software, websites and emails, we will take care of it for you.

By using our software you are engaged in educating parents which is considered important by experts.

Be different. Be an outlier among the en masse of education providers.

"There can be infinite uses of computers and of new age technology, but if the teachers themselves are not able to bring it in to classroom and make it work, then it fails"

--Nancy Kassebaum, U.S. Senator

"Institutions need to integrate technology seamlessly into the curriculum instead of viewing it as an add-on, an afterthought or an event"

--Heidi-Hayes Jacobs, Educational Consultant.
